

White Mountain™

Never Peel™

The Ultimate Primer, Sealer, Stabilizer, and Bonding Agent

Specifications

DESCRIPTION:

Never Peel is designed to reduce and stop paint peeling problems, and provide an easy way to prepare peeling paint surfaces for repainting. When applied, **Never Peel** forms a flexible membrane that allows vapor transmission while bridging and bonding unsound surfaces, providing a perfect base for repainting. **Never Peel** is white for visibility when applied, then dries clear. It will not crack or blister from changes in temperature or humidity. **Never Peel** is also available in light gray for use on colors that require better hide characteristics or where stains from within wood are possible.

USE:

Never Peel is perfect for use in lieu of scraping peeling paint, or as a primer on new surfaces to ensure long lasting paint.

Never Peel is ideal for use on:

- window frames, trim and facias
- bathrooms and kitchens
- saunas and hot tubs
- green houses
- oil based paint
- areas of high humidity
- areas of high intensity sunlight exposure
- exterior railings and horizontal surfaces
- all wood, plaster, metal, masonry, stucco, plywood, chipboard, and T-111 surfaces

ADVANTAGES:

- Locks down paint to prevent peeling
- Breathable; won't bubble
- UV resistant
- Easy to apply

LIMITATIONS:

- Not recommended for application to wet surfaces

Properties

VOC: [minus exempt solvents & water] .. 122 g/l - (1.02 lbs/gal)

FLASH POINT: [setaflash] >200°F

APPEARANCE:

Wet milky / gray / white

Dry clear / gray / white

ODOR: mild

WEIGHT PER GALLON: [average] 8.7 lbs

PACKAGE VISCOSITY: 100 KU

SOLIDS: [average]

By Weight 30.2 ± 3%

By Volume 27.0 ± 3%

COVERAGE: [approximate]

Porous Surface 150-250 sq ft/gal

Previously Painted Surface 250-500 sq ft/gal

For exact coverage rates, a measured quantity to proper saturation over a known area will provide a square foot coverage rate for a specific job.

DRY SCHEDULE: [at 50% RH and 1.75 mils DFT]

	50° F	60° F	75° F
<i>Dry to Touch</i>	6 hrs	4 hrs	2 hrs
<i>Rainproof/Cured</i>	24 hrs	24 hrs	24 hrs

ORDER CODE: Clear W2-06C

Gray W2-06G

White W2-06W

PACKAGING:

Four 1 gallon cans per case

5 gallon pails

Never Peel™

The Ultimate Primer, Sealer, Stabilizer, and Bonding Agent

Application Data

SURFACE PREPARATION:

- Before use, thoroughly test this product on a sample to assure performance and appearance.

New Surfaces and Painted Surfaces:

Surface must be completely clean, dry to the touch, and free of contaminants such as dirt, oil, grease, etc.

Failed Paint:

Remove as much loose or flaking paint and contaminants as possible with a pressure washer. If mildew is present, apply a mixture of half water and half household bleach to the surface just prior to pressure washing. If a pressure washer has been used, allow surface to dry at least 24 hours prior to applying **Never Peel**.

APPLICATION:

Never Peel can be applied with a brush, roller, or sprayer (back brush or back roll if sprayed), paying particular attention to cracks and old paint edges.

Applicator:

- Brush.....synthetic bristle brush
- Roller..... 1/2" nap lambs wool roller
- Airless sprayer tip size0.015" - 0.021"

Apply when temperature is between 50°F and 80°F. More than one coat may be needed on severe problem areas, as with old weathered wood. For best results, a second coat should be applied within 30 minutes of original application. Make sure **Never Peel** is dry to the touch before applying finishing coat.

Do not apply **Never Peel** during inclement weather or in direct sunlight when temperature exceeds 80°F. Do not apply to wet or damp surfaces. Air and surface temperature should be between 50°F and 80°F for 24 hours following application.

IMPORTANT NOTE:

Do not overapply. Excess primer should not be allowed to pool, puddle, or drip.

Water Penetration Test:

Sprinkle a small amount of water on the sealed surface. If water penetration occurs or if water does not bead up on surface, apply additional sealer. This test should be performed after each applied coat.

CLEANUP:

When wet, flush with clean water. When dry, use lacquer thinner or xylene.

TO REMOVE: abrasive sanding or paint stripper

Health & Safety

WARNING:

LIQUID CONTACT WITH EYE AND SKIN MAY CAUSE IRRITATION. DO NOT INGEST. Avoid contact with eyes and skin. Wash hands thoroughly after using and before eating and smoking. If spillage has occurred, absorb and dispose of according to local regulations.

FIRST AID:

Should eye contact occur, flush with plenty of water for at least 15 minutes and get medical attention if vision is disturbed. For skin, wash thoroughly with soap and water. If swallowed, seek medical attention immediately. DO NOT induce vomiting.

THIS PRODUCT IS FOR PROFESSIONAL USE ONLY.

KEEP THIS PRODUCT OUT OF THE REACH OF CHILDREN.
